Le monde change. La pub aussi.

All the weather on a single channel.

La Chaîne Météo is the only specialized weather news channel in France. For 26 years, its teams of meteorologists and engineers have been working hard, at all times, to meet the three essential missions set for them: **helping you make your daily decisions, educating you by explaining the weather and how it works, and entertaining you with enthusiasm and good humor.**

FLAGSHIP PROGRAMS

Météo non stop

Every 15 minutes, 24 hours a day, 7 days a week, La Chaîne Météo offers a new comprehensive weather report presented by its expert meteorologists: detailed two week forecasts for France and the regions, weekend weather, trends, explanations, analysis, air quality, allergies, and more. This 10-minute bulletin includes all the information you need to organize your free time, your travel, your vacations, your leisure activities... your whole life!

Météo Jardin

Every week, our meteorologists and gardening experts share their planting tips based on the season and the weather conditions: there's more than enough to ensure you keep your green fingers come rain or shine!

Météo Santé

Cold, heat, UV rays, brightness... the weather has an important influence on our health, our diet, our sleep and our everyday life. We explain the strong link between the weather and your daily life, along with advice to better understand these phenomena.
